MEDICAL CENTER

An affiliation agreement between the medical school and Grace-New Haven Hospital in 1965 created Yale-New Haven Hospital (YNHH), which expanded in 1993 with the opening of the Children's Hospital, and again in 2000 with the acquisition of the Psychiatric Hospital. The 14-story Smilow Cancer Hospital opened in 2009, and in September 2012, YNHH acquired the Hospital of Saint Raphael, adding 533 beds and making it one of the largest hospitals in the United States. The medical campus has grown over the years to include or abut the institutions listed at left. Four miles away in West Haven, the affiliated VA Connecticut Healthcare System maintains active clinical, research, and education programs in conjunction with many medical school departments. Extensive maps and directions to medical center destinations are available online at *medicine.yale.edu/maps*.

HOW TO REACH US

- **To find a Yale doctor**, visit Yale Medical Group online at *yalemedicalgroup.org*, or call (877) YALEMDS or (203) 785-4851.
- **For information on medical school admissions**, visit *medicine.yale.edu/admissions*, or call (203) 785-2643.
- **For news about the school**, visit *medicine.yale.edu*. Media inquiries should be directed to the Office of Public Affairs and Communications at *opac.yale.edu* or (203) 432-1345.
- **To find a person at Yale University**, consult the online directory at *directory.yale.edu/phonebook*, or call directory assistance at (203) 432-4771. To find a person at Yale-New Haven Hospital, call (203) 688-4242.
- **To give to the School of Medicine**, please visit *yale.edu/givemedicine* or call Jancy Houck at (203) 436-8560.

Facts and Figures 2012–13 was produced by the Office of Institutional Planning and Communications. To order copies, contact us at 1 Church Street, Suite 300, New Haven, CT 06510, or (203) 785-5824, or by e-mail at *facts.med@yale.edu*. On the Web: *medicine.yale.edu/facts*.

Community service

The majority of students volunteer for at least one of the school's many community service projects, including:

- Hill Regional Career High School partnership
- Anatomy Teaching Program
- Hunger and Homelessness Auction
- HAVEN (student-run free clinic)

Free care provided to New Haven residents in FY12: \$14.2 million⁶

YALE UNIVERSITY AND NEW HAVEN

The School of Medicine is located immediately adjacent to the main campus of Yale University, one of the world's great institutions of higher learning. With a residential college system modeled after those of Cambridge and Oxford, the undergraduate school is complemented by the Graduate School of Arts and Sciences and 12 professional schools, including Architecture, Art, Divinity, Drama, Engineering and Applied Science, Forestry and Environmental Studies, Law, Management, Music, Nursing, and Medicine, which includes the School of Public Health. In 2007, Yale acquired the 136-acre West Campus in West Haven.

Established in 1638, New Haven was the first planned municipality in America, organized geographically in nine squares, including a picturesque Green. Today, New Haven is a vibrant coastal city located on Long Island Sound between New York and Boston. Cultural opportunities abound, from dance, theater, and music to the treasures of Yale's art and natural history museums.

New Haven's two hospitals became one in September 2012, when Yale-New Haven Hospital acquired the Hospital of Saint Raphael.

⁶ Free care to New Haven residents increased significantly over the previous year because of changes in the way the state of Connecticut is administering the Medicaid program and reimbursing providers.

Yale Office of International Affairs offers support to faculty in establishing and maintaining collaborations abroad, drawing on existing relationships on six continents. It maintains an online faculty research database.

Yale UCL Collaborative was established in 2009 to launch joint projects in basic biomedical research, medical education, and clinical care and has subsequently expanded into other disciplines.

Fudan-Yale Biomedical Research Center provides a locus for cutting-edge research in the fields of genetics and molecular medicine in collaboration with Fudan University in Shanghai.

The Yale Global Health Initiative is part of the university's Jackson Institute for Global Affairs, which supports and coordinates the efforts of students and faculty. Projects include the Global Health Leadership Institute, in which health leaders from other nations spend a week at Yale devising strategies to overcome health problems in their home country.

By the numbers (2011-12)

International students at Yale (%)
MD 17%
MPH 25%
BBS 29%
Postdocs 70%

Yale students/trainees abroad⁷

MD 30
MPH 30
Downs Fellows 16
Yale/Stanford Scholars 55

Visiting MD students (at Yale) from other nations 98

INTERNATIONAL ACTIVITIES

The School of Medicine is an active partner in fulfilling Yale's international goals, which include preparing students for international leadership and service, attracting the most talented students and scholars to Yale from around the world, and positioning Yale as a global university of consequence.

Faculty members conduct research abroad, teach, and design courses in global health. Their work runs the gamut from molecular studies at the nanoscale to the analysis of social networks in disease transmission and prevention, to the improvement of health care systems. Among the programs spanning the institution are:

- **Office of International Medical Student Education** facilitates the placement of Yale medical students in clinical elective clerkships at sites in Argentina, China, Columbia, Indonesia, Peru, South Africa, Thailand, Uganda, the UK, and Zambia. The office also administers the Visiting Student Elective Program.
- **Downs International Health Student Travel Fellowship** program supports students who undertake health-related research, primarily in low- and middle-income countries.
- **Yale/Stanford—Johnson & Johnson Scholars in Global Health** sponsors rotations abroad for Yale house staff and physicians from other institutions, who travel to six sites in Africa and Asia.

Community health workers in Nepal conduct screenings in a program organized by Yale medical students.
